

DATSUN

OWNER'S MANUAL MODEL 510 SERIES

Foreword

This DATSUN has been designed and manufactured with our best care and effort to attempt to give you complete satisfaction. However, proper handling and maintaining by you is very essential in order to obtain maximum efficiency from your new car.

The purpose of this book is to acquaint you with the DATSUN features designed to add to your motoring pleasure. Proper handling, maintaining, breaking-in and technical information are all provided to ensure that you obtain full performance from your DATSUN. Please read through this manual and keep it in the glove compartment so that you can readily refer to it whenever necessary.

If you have any problems, please consult your authorized Distributor/Dealer. He is in constant touch with our factory service representatives and is equipped to provide the most up-to-date and approved servicing methods.
