GENERAL DESCRIPTION OF NISSAN PARTS CATALOG

This catalog has been prepared for Nissan genuine parts for the Datsun sports 240Z model HLS30 and Datsun 260Z model RLS30, GRSL30. All the parts presented here are manufactured and supplied according to our quality standards. Be sure to use only Nissan genuine parts to insure maximum performance from our vehicles.

In order to bring better customer service and spare parts supply, please familiarize yourself with the Nissan parts catalog system.

KEEP THE PARTS CATALOG ALWAYS UP TO DATE

A *spare parts bulletin* is issued every 1st and 15th of each month as a supplement to inform you of the latest modifications. The bulletins include all the accumulated changes up to the previous edition. Keep the latest spare parts bulletin only.

Revisions to the catalog are made to replace particular sections when amendments are required in *March, June* and *September* of each year. The accumulated information of the spare parts bulletins for the past three months are completely transferred to these revisions.

An *overall revision* comes once a year in December. It carries all the sections for an entire replacement of the parts catalog.

HOW TO PLACE YOUR ORDERS FROM THE PARTS CATALOG (FOR DISTRIBUTORS ONLY)

Typewrite your order on the given Nissan spare parts order sheet, form No.109-051.

At least the *part number* and the *quantity* must be filled in accurately. Otherwise our computer may reject your order.

In the case that you can not find the part number which you require we shall be very glad to take care of this problem after verifying its availability. Therefore, place your order on another order sheet as a *conditional order*. Please specify precisely the part name, the quantity, the place where it is attached or include a photograph, an illustration copy or a sample for identification.

HOW TO COMPARE THE CONFIRMATION SHEET WITH THE PARTS CATALOG (FOR DISTRIBUTORS ONLY)

Although all parts contained here are, in principle, available for supply, you may find some parts cancelled by being sorted as F/# U, cancel code 9 on your confirmation sheet. If this is the case, kindly inform us of the part numbers, the catalog publication number, the page and the month of revision with your order reference, Nissan serial number. We shall be glad to advise you of the availability by the revised confirmation sheet as soon as possible.

The parts you ordered may be cancelled by the following reasons on your confirmation sheet. The latest availability for these parts will be informed through a spare parts bulletin or revisions.

C.C. (Cancel Code)	Cancel Reason
5	out of production
6	not for sale
7, 8	others
9	unmatched

For further details, refer to the Nissan Parts Standard Operation Procedures, pub. No. EC-009.

BRIEF SPECIFICATIONS

DIMENSION AND SEATING CAPACITY:

ITEM \ MODEL	HLS30	RLS30	GRLS30
Overall length	4,136 mm (162.8 in.)	4,115 mm (162.0 in.)	4,425 mm (174.2 in.)
Overall width	1,630 mm (64.2 in.)	↗	1,650 mm (65.0 in.)
Overall height	1,286 mm (50.5 in.)	1,280 mm (50.4 in.)	1,290 mm (50.8 in.)
Wheel base	2,305 mm (97.7 in.)	↗	2,605 mm (102.6 in.)
Tread front	1,356 mm (53.3 in.)	1,355 mm (53.3 in.)	↗
Tread rear	1,347 mm (53.0 in.)	1,345 mm (53.0 in.)	↗
Min. road clearance	164 mm (6.5 in.)	↗	↗
Seating capacity	2 persons	↗	2+2 persons

ENGINE-1:

HOW TO USE THIS PARTS CATALOG

Reading these instructions carefully will help you to make the best use of this parts catalog. This catalog comprises the following groups; engine, engine fitting, electrical, power train, axle, brake, steering, body and miscellaneous.

On the yellow sheet at the beginning of each group you can find the section titles included in it.

(A) Use the following process in finding a part number you are looking for.

1. Turn to the yellow sheet and find a pertinent section.
2. The illustration given with each section will guide you to the part number through the key number allocated to each item.

(B) The following process should be taken in getting a detailed description of the part number you already know.

1. Turn to the part number index. The part number should be classified in numerical order.
2. You can find the section number and page.

(C) You should take the following process in finding the part number when only the part name is known.

1. Turn to the alphabetical part name index. The part name should be classified in alphabetical order.
2. You can find the section number and page.

Followings are explanations of each column in the text. A sample is given above.

1 Section Title

2 S

When you place your orders, please notice the following two symbols in this column.

* Non-availabel item or old item superseded by a new one.

.... Conditional order item. Separate your orders from ordinary ones.

3 KEY NO.

The key numbers appear in numerical order corresponding to those in the illustration. If more than one part number is shown under the same key number, the part numbers should be arranged under different suffixes.

1 Level

The levels appear in four ranks from left to right showing the relations between assembly and components. The assemblies in higher levels include the components in lower levels.

5 PART NO.

The part number is shown in this column. It is as a rule ten digits.

6 DESCRIPTION

The description for the part number is shown in this column.

7 QTY

The quantity of the part used in this section appears in this column. "AR" stands for as required.

8 UNIT PKG FOR DIST (For distributors only)

This column gives the minimum sales unit for supply. The quantity of the supply for stock orders should be the multiples of this unit. It will make it easy to handle the package and avoids unnecessary delay in shipment.

9 APPLIED MODEL

The models are indicated accordingly to the group symbols. When the part is applied to more than one model, the models are shown individually. When one model type is defined by more than one group symbol, the subordinate model type is indicated in parentheses.

10 APPLIED DATE

The date which the part is newly equipped on the vehicle or superseded by a new one on our assembly line, is indicated in this column. At the time of the annual model change the date will bring you the actual car number as shown on the page of "Car Number and Engine Number" in the introduction. In the case of ordinary modifications, the actual car numbers or engine numbers are shown as required.

11 ICA

This column will help you to clarify the relationship between the new part in the part number column and the former one in the superseded column. Column "N" will indicate the interchangeability of the new part to the former one and the column "F" shows that of the former part to the new one. In this column the following three symbols indicate the relations.

Y (Yes)	There is interchangeability.
N (No)	There is no interchangeability.
C (Conditional)	There is conditional interchangeability.

In the case that you find C in this column, the condition is indicated in the foot note.

12 SUPERSEDED

The former part number appears in this column.

GROUP SYMBOLS AND ABBREVIATIONS

4 SPEED	The Part is used on S30 model with a 4-speed manual transmission.
5 SPEED	The part is used on S30 model with a 5-speed manual transmission.
MANUAL	The part is used on S30 model with a manual transmission.
AUTOMATIC (or AUTO)	The part is used on S30 model with an automatic transmission.
L26	The part is used on RLS30, GRLS30 model with a 2,565 cc (156.5 cu.in.) engine.
L24	The part is used on HLS30 model with a 2,393 cc (146.0 cu.in) engine.
OP	The part is optionally equipped.
CRANK	The part is used on S30 model with a crankcase emission control devices.
EUROPE	"EUROPE" means that the part is exclusively used for EUROPE.
2+2 SEATER	The part is used on 2+2 SEATER GRLS30 model.
EXC	Except.

CAR NUMBER AND ENGINE NUMBER

To choose the right parts, always refer to Car Nos. or Engine Nos., which are located in the engine room (see below).

EXPLANATION OF NISSAN PARTS NUMBER SYSTEM

Our part number as a rule consists of ten digits which are made up of four factors as follows. However, the part numbers for the standardized small parts such as screws, washers, bolts, nuts and so on are established according to another rule called N.E.S, the Nissan Engineering Standards.

Section No.	Character No.	Part Type No.	Distinction No.
0 0	0 0 0	— 0 0 0	0 0

1. Section No. (2 digits)

The Section No. consists of 2 digits which indicate the major function of parts.

2. Character No. (3 digits)

The Character No. consists of 3 digits which indicate minor classification in each Section as shown by the Table of Section and Character No. on page 15.

The character No. of 000 or X00 signifies the assembly parts.

3. Part type No. (3 digits)

The Part Type consists of 3 digits which in principle indicate the applied model as shown by the Table of Part Type on page 18. This means that the part is originally designed for that model. However, it may be used widely over our models. Therefore, it does not always signify the applied model.

4. Distinction No. (2 digits)

The Distinction No. consists of 2 digits which indicate the difference between similar parts as follows.

Kinds of Distinction	Distinction No.
a. Similarity	00 - 19, 60 - 69
b. Exclusive Service Use	25 - 29, 75 - 79
c. Material	40 - 45, 80 - 85
d. Processing	30 - 39, 90 - 94 50 - 59

Note; The other Distinction Nos. are unset.

a. Similarity

When parts are only slightly changed, the distinction is shown by this No..

Similar or colored parts are distinguished by this No..

For example;	74902-11400	Carpet (red)
	74902-11401	Carpet (blue)
	74902-11402	Carpet (brown)

b. Exclusive Service Use

Repair kits or sets which are used exclusively for service, are set by this No..

For example;	46010-10800	Brake Master Cylinder assembly
	46010-10825	Repair kit

c. Material

The difference of materials is distinguished by this No..

d. Processing

For the convenience of our production line process, in the case we can not supply by the original part No., the subassembly is supplied by this No..

For example;	20132-08750	Clamp sub-assembly
		Components
	20132-08700	Clamp-lower
	20133-08700	Clamp-upper
	00114-52010	Bolt
	00915-11510	Washer

5. Except those numerical part numbers, there are the part numbers beginning with letters.

They are the part numbers exclusively reserved for service use.

S-Section No.
C - Character No.
